

# AC FLOW

Also for use on window AC units

## Evaporator Coil Cleaner

**Cleans and dissolves soil and deposits on evaporator coils without harming the metal coils.**

- *Designed for Contractors*
- *pH Balanced | Non-corrosive formula*
- *Helps Maintain Efficiency of Unit*
- *Cleans Stubborn Soil and Deposits*

**32 fl oz  
(1qt) 946 ml**

**Special formulation is ready to use without diluting or mixing.**

**CAUTION: Keep out of reach of children. Read precautions on back.**

## AC FLOW Evaporator Coil Cleaner

### How AC Flow works

Be sure the air conditioning system is turned off. Liberally saturate the coil area. After waiting a few minutes, gently brush the fins, being careful not to bend the metal, and avoid contact with electrical wiring or the motor. Rinsing thoroughly with a garden hose is recommended, but if not readily available, the “no-rinse formula” option allows you to turn the system on for 30 minutes, and the condensation will rinse coils. The coils must be rinsed if the equipment is going to sit unused for a period of time. Repeating the process may be necessary in the case of heavy build-up of soil.

### CAUTION

1. KEEP OUT OF REACH OF CHILDREN.
2. DO NOT INGEST.
3. AVOID PROLONGED CONTACT WITH SKIN.
4. AVOID CONTACT WITH EYES.
